Risks and crisis prevention

In order to prevent any kind of crisis, Awesome People believes that the info given during the preparation of the volunteers plays a very important role.

The volunteers will receive a detailed info pack before arrival and a welcome pack upon arrival where they can find useful call numbers and emergency numbers as well as info for better integration into the local society.

The volunteers will participate in a monthly personal meeting in order to have the chance to talk about difficulties they are facing and find ways to overcome any possible issues occurring with the Awesome people team.

Once the volunteers arrive, they attend a week of introduction. Here volunteers become aware of all the necessary instructions and measures for risk prevention for the safety in the house (house conditions, fire protection, use of electronic or gas devices, etc), transport rules and habits, traveling, health prevention, local everyday life and work.
